Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Whilst we support the general principle of solar power we are against the use of good food producing land. In these uncertain times food production is becoming more and more important and land should be used for food production and NOT solar power. All commercial buildings and new houses should have solar panels fitted. If fitted on new buildings it would be cheaper and would cause less disruption of the countryside.

Sheephurst Lane is not the place for solar panels.
