Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: My objection is fairly simple, this is green field land not brown field, government policy is for great Britain to become more self sufficient with home grown produce, how does this help?. The south east is littered with derelict ex developed land / brown field sites why are these not being prioritized for solar panel farms. Surely wildlife, both rare and commonplace should be a consideration and by the mere fact that this land is being considered at all tells me it has not been. Another eye sore in our green and pleasant land for nothing other than greed
